CONTROL4® EA-3 ENTERTAINMENT AND AUTOMATION CONTROLLER

C4-EA3, C4-EA3-V2

Important Note: This controller can now be upgraded to an OvrC Pro device by updating the Control4 system to OS 3.2.2 using Composer Pro or Composer Express.

The versatile Control4 EA-3 Entertainment and Automation Controller is the perfect fusion of multi-room, high-resolution audio and smart home automation for small to mid-size homes.

Powered by a next-generation multi-core processor, the EA-3 delivers a new level of speed and performance for instantaneous, interactive on-screen access to all the systems in the home. A built-in music server with three audio outputs delivers high-resolution audio throughout the home from your local music library, popular streaming music services, and AirPlay-enabled devices using native Control4 ShairBridge technology.

The EA-3 includes a variety of I/O to automate audio and video, lighting, climate control, door locks, and other devices controlled by IP, infrared (IR), serial, and Zigbee. With PoE+ for power, a port for Ethernet out, and its optional mounting bracket, the compact form factor of the EA-3 makes it easy to install behind any TV or projector.

Three audio outputs—one HDMI, one stereo analog, and one digital coax—distribute up to three simultaneous, high-resolution audio streams from native streaming services, AirPlay-enabled devices, and local music.

OvrC Pro remote management is built-in, giving you access to the entire network of IP devices, including third-party products. OvrC delivers enhanced troubleshooting capabilities and diagnostic data that makes remote support easy, eliminating unnecessary truck rolls and enabling you to streamline your business and tackle more jobs – all from the OvrC web or mobile app.

- Integrated music server with native support for popular streaming services, including Deezer, Pandora, Rhapsody, Tidal, and TuneIn
- Elegant on-screen experience for easy access to entertainment and the entire home
- Low-profile design features an integrated power supply for flexible, simple installation and long-term reliability
- PoE+ provides power and network connectivity over a single CAT5/CAT6 cable
- Built-in two-port Ethernet switch simplifies installation by connecting an additional device to the home network
- Optional mounting bracket allows easy mounting to the back of your TV, on the wall, or to a standard wall box
- Integrated Zigbee radio with external antennas simplify installation while delivering high-performance connectivity
- USB port enables connection to external hard drives for easy access to music content
- Control4 App license enables in-home control from multiple iOS—including Apple Watch—and Android mobile devices
- Connect to your home remotely with an optional 4Sight subscription
- Video/Audio Intercom for whole-home communications with Control4 touch screens and door stations
- OvrC Pro built-in for advanced remote management and monitoring
