Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product.

INWALL SILVER/6 LCR

The philosophy of a completely enclosed and fully engineered inwall speaker is epitomized in the InWall Silver/6 LCR. Where 6" of wall depth is available, this speaker performs at the same high level as its inroom version.

At Triad, we don't believe inwall should mean not as good. With the same driver compliment as the InRoom Silver LCR, the InWall Silver/6 offers outstanding fidelity on movies and music.

In a high-output speaker, a real cabinet not only ensures predictable results, it offers superior isolation. Conventional open back speakers will bleed into adjacent rooms, and blur the sound in the listening room, as well. The entire Triad InWall Silver System, including Subs and Surrounds, provides predictable sound without sonic or aesthetic compromise.
