

Made for Massive Bass

MEGA Series Subwoofers

MEGA Series Subwoofers pound out seriously low bass at very loud volumes with negligible distortion. These subs deliver up to 1000 watts of continuous power and are loaded with the latest features like wireless connectivity, IP control, and a companion app for massive bass that's easy to control!

Massive Amounts of Bass

MEGA Subs use Class D BASH technology, advanced internal bracing, huge magnets, and oversized long-throw voice coils to deliver staggering bass that transforms music and movies.

S-Series MEGA Sub

These subs use a potent single driver to pump up to 650 watts of continuous power. Plus, you can put this bad boy on full display with its vinyl matte black finish and floating grille design.

D-Series MEGA Sub

These subs use dual drivers for chest-pounding bass with up to 1000 watts of continuous power for the ultimate home theater experience. They also feature a gloss black or wood finish for stunningly good looks.
