Z-Phosphor

SXR D

4K  
HDR

## Never Miss a Thing

With the VPL-GTZ380, high contrast images appear 5 times brighter than the typical home cinema projector.

## Watch Where You Want

Perfect for ambient light environments, you can watch indoors or outside with no loss of quality.

## Out of Sight

Integrated into your home and can be controlled by all the key automation providers.

## Bigger Than The Big Screen

Achieve screen sizes up to 8m wide at 30fL\* or utilise the brightness to achieve a true HDR projection experience with 120fL at 4m wide.

\*approx. brightness utilising a 1.2 gain screen

## Truly Cinematic Scope

Movies can be viewed in cinema scope format 2.35:1, or switch to 16:9 for TV and gaming at the press of a button.

## Brightest and Best

DCI colour space gives the same colour and image quality as in a cinema without any brightness loss.

## Never Compromise

Accurate colour reproduction and high contrast make dark scenes easy to see, no matter your lighting.

## The Choice is Yours

With 4K Motion Flow, fast-moving action scenes are smooth and lag-free, whatever you're watching.
