

High-Speed Technology

Our Binary B4 HDMI cables support 4K at 10.2 Gbps and 30Hz in lengths from 0.3m to 7.5m. They are ultra-pliable and feature a protective internal gel for enhanced bend strength in tight spaces. They also feature a low-profile connector that's ideal for flat-panel TVs and 24K gold-plated connectors for unmatched longevity and clarity.

Flexible Fit

Our B4 cables feature an ultra-pliable jacket with a tighter bend radius, allowing cables to hide perfectly behind the TV - even in tight spaces.

Well Connected

Our B4 cables feature a connector that's up to 50% shorter than the competition, making them ideal for any multimedia install where space is limited.

Superior Strength

Our B4 Series cables are reinforced with a protective gel to ensure a secure connection of the cable to the connector.

Advanced Video Formats

Our B4 cables transmit 4K Ultra HD signals (from 4K@30 4:4:4 with 8-bit color up to 12-bit color at 4K@30 4:2:2) at 10.2 Gbps and support Dolby TrueHD, DTS HD-Master, Audio Return Channel, and Ethernet.
