

# TRIAD INSTALLATION GUIDE - TRIAD ONE RACK MOUNT

## INTRODUCTION

The Triad One Rack Mount is intended for use with one or two Triad One Streaming Amplifiers and provides easy installation in an equipment rack. The 3U rack mount has a custom faceplate designed for a professional presentation and includes a blank plate that can be put in place when only one Triad One is installed. The rear edge of the shelf also includes a lacing bar for convenient cable management.

## SUPPORTED MODELS

- Triad One Rack Mount, 3U, Black (TS-AMPIRM-BL)

## INSTALLING ONE TRIAD ONE STREAMING AMPLIFIER IN THE RACK MOUNT

- 1 Position the Triad One to the far left (or right) of the rack shelf, and then push it forward, so that the front meets the cutout in the faceplate.
- 2 Install the top clamp over the Triad One, making sure to align the screw holes in the front and threaded stud notches in the back.
- 3 Install the two supplied screws on the front left and right.
- 4 Attach the three supplied nuts to the three threaded studs on the back.
- 5 Install the blank insert on the side with no Triad One, then attach a single nut to the threaded stud on the inside of the mount.
- 6 Install the full assembly into the equipment rack.

## INSTALLING TWO TRIAD ONE STREAMING AMPLIFIERS IN THE RACK MOUNT

- 1 Position the first Triad One to the far left of the rack shelf, and then push it forward, so that the front meets the cutout in the faceplate.
- 2 Position the second Triad One to the far right of the rack shelf and then push it forward to align with the first Triad One unit.
- 3 Install the top clamp over the top of both units, making sure to align the screw holes in the front and threaded stud notches in the back.
- 4 Install the two supplied screws on the front left and right.
- 5 Attach the three supplied nuts to the three bolts on the back left, center, and right.
- 6 Install the full assembly into the equipment rack.
