Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product.

## INWALL MINI/4 LCR

Triad's inwall version of the Mini LCR was designed for small home theater venues where the best sound is desired, but speakers must be discretely placed. Because we use the same type of fully-engineered enclosure design as the InRoom and InCeiling versions of the Mini LCR, performance is nearly identical, but without having a speaker intrude into the room.

To make the attractive flush Acoustiperf grill disappear even more, custom paint matching is offered with this and all Triad LCRs.

We can offer this service because our speakers are made-to-order in our modern facility in Oregon. Use any of many Triad Surrounds and Subs with the InWall Mini/4 LCR, including inwall, inceiling, inroom, and onwall versions, to create a superb custom home theater system in a den, bedroom, or office.
