MINI SUB

IN-ROOM, IN-CEILING

MINI SUB

IN-ROOM, IN-CEILING

With a compact 8″ driver, Triad's Mini Sub fills intimate settings with authoritative bass. Hear and feel deep bass with control and accuracy—experiencing the compelling low frequencies which enhance and enrich movie soundtracks and music alike. Triad's subwoofers combine superior quality and efficiency, completing your soundscape with precision and power in numerous applications and environments.

Both models deliver unmatched performance for their size with studio-grade drivers and sealed, internally braced enclosures. Long-throw woofers produce enhanced output and substantial impact with ultra-low distortion.

Triad offers two perfectly matched subwoofer amplifiers for these subwoofers—the RackAmp 300 and RackAmp 700. Both amplifiers have been engineered and tuned to bring out the best in these subwoofers and your system.

In an industry of generic, mass-produced products, Triad's handcrafted sealed-box enclosures deliver detailed acoustics and effortless playback, actualizing the artist's intent.

FEATURES

- 8″ ultra-low distortion, long throw woofer
- Passive subwoofer
- Compact, internally braced cabinet design
- High power handling and high SPL output
- Available in 4- or 8-ohm versions depending on application needs
- Fully-engineered, acoustic suspension premium MDF enclosure
- Custom paint-matching service included

IN-ROOM

- AcoustiPerf metal grill; veneer finishes available
- Compact design; only 10 $\frac{1}{2}$″ deep

IN-CEILING

- AcoustiPerf frameless metal grill
- Compact design; only 10″ deep
